Cyber Security BSc (Hons)

What makes studying Cyber Security at Worcester special?

Studying Cyber Security means you're in high demand with awesome career prospects! At the University of Worcester, you can gain hands-on experience by working on live client projects through our WBS Springboard Program.

Why This Course is Perfect for You:

- Real-World Projects: Get practical experience by working on live projects for real clients.
- Top Placements: Students have opportunities to undertake placements with big names like Bosch, IBM, and Clearview.
- Showcase Your Skills: Present your final year project to industry pros at our annual Computing Showcase.

Plus, you can choose to take a one-year work placement in the industry during your course to gain vital real-world experience.

If you're into tech and want a career with great prospects, Cyber Security at Worcester is the way to go!

Key Features of Cyber Security BSc (Hons)

- Our Cyber Security course is designed in consultation with employers, aligned with industry standards, and taught by experienced computing professionals
- Specialist modules featuring mini-projects and building portfolios gaining transferrable skills using contemporary software and tools
- 24/7 access to excellent IT facilities, including dedicated PC, Linux & Mac labs featuring industry-standard software
- Sociable team of students and approachable and friendly lecturers create a supportive learning environment
- Enhance your employability through internships, projects, and paid placements
- Experience international cultures and develop a global mindset through options to work and study abroad
- Opportunities to engage in additional extra-curricular activities throughout the degree

Worcester Business School: Transforming individuals to thrive in the 21st Century
